BRUNITUS

The diablo is a millenary invention of Chinese origin. It was used before Christ to drive away evil spirits. *Brunitus* recovers this mystical origin in his new show to generate a trip. A journey around human emotions through this element that spin, fly and tangled like our stories.

Gùshi means stories in Chinese language. We breathe stories. Without stories, there is no life, there is no time. Time is relative... relative to its story.

Why tell stories with words, if you can tell with diabolos?

Gùshi is a circus fable. A poetic and intense proposal. A show for the whole family.
